CAREER OBJECTIVE

As a final-year BCA student with a CGPA of 9.01 . I am seeking a role in the IT industry where I can utilize my technical, analytical, and logical skills to deliver successful projects. My long-term goal is to become a Tech Lead in an organization that values innovation, collaboration, and continuous learning.

PROJECTS

As a final project, We prepared an **Ecommerce** website with the functionality of browsing and buying books utilizing our skills in **HTML5, Bootstrap CSS, PHP & SQL**. My main contribution & responsibility was to develop its **frontend** and **Tester** which received positive feedback from teachers and students and to run website from different platforms.

I have also pushed several projects in web development and android development on my GitHub profile as part of self practice & learning.

TECHNICAL CERTIFICATIONS

HackerRank Coding Certification:
- Problem Solving.
- Sql.
- Python.
- Javascript.

Great Learning:
- Introduction of **Artificial Intelligence**.
- **Android Application Development**.

Internet of Things Certificate from one day workshop.
